Volume enhancer apk

Issue 4.6.2.2 Android 4.4 Name of hiccup.cool.volume.sound.booster Release Date 2021-01-08 Advertisement Volume Booster is one of the largest applications, which you can use to increase the volume of the phone, where you can increase the sound in a fairytale way when playing or enjoying music or watching movies or many others where the application works with headphones also it is a very great function for a lot of people looking if your phone headphones have drawbacks application size booster; Problems immediately. ... Application size booster increase speaker is very excellent where you can increase the rate of mobile vibrator by applying to increase the sound rate by song or movie and so on when the application show that you have a unique interface with high quality application contains two circles of the first circle called volume through which you can control the sound of the song or video and there is another circle next to it called Boost , through which the mobile vibrator can control. Features of the application volume booster volume, increase speakers there are in the interface of the program multiple icons of each icon does something specific the first symbol with us in this application is mute and by it mute the two circles if you do not want to increase the sound and use the phone only and then there is another symbol called Normal that controls the two circles So that the sound makes normal and not annoying person listening to video or music, since there is another symbol where there is 100% work on the mute vibrator as There is an icon called Max that confuses the sound with the vibrator to make it the biggest sound. Also, you can add your music from the program by Volume Booster APK and there is an icon called Player that controls the playback and stop of the music as the program supports external speakers and Bluetooth speakers as it has an icon called Sound to add the music you want as available in the application to the title of the song or video so you are able to read the song you want where the program also increases the volume of the system and increases the ringtone and messages The app increases the alarm sound because many people suffer from the lack of sound of the alarm, so you can also see a band that shows the visual sound spectrum when you hear the song. Where all sounds move according to the height of the song really apply the size of the booster increase speakers of the best programs that can be used when increasing the sound, because many suffer from the lack of voice in mobile phones you can when you play the rich work break to stop the song or can be on the following song or work on the previous song and many controls in this program unmistakable also wonderful because it is an easy-to-use program and fast as it can change the color of the program warning to customers can lead to a malfunction in the phone speakers or they break we recommend to increase the sound step by step to make no difference in the speaker, which distinguishes this application also that it is now free, share this application with your friends to benefit from this wonderful project that works for free from the Google Play program for Android devices as it does not take up much space like the rest of the programs. Ad Follow us on Telegram m for the latest apps and games category: apps - Music and Songs latest edition: 4.6.2.2 Published Date: 2021-01-08 2021-01-08 : QR Code Author Bookproaps: 2.3 . 5 2019, apk (2.67 MB) Super High Volume Booster (Super Speaker pro) is the best free app that will help you increase the volume of your Android phone by making it for all sound streams (music, voice, alarm, system).
